## UNIVERSE

By SCUDDER KLYCE

### With three INTRODUCTIONS by

DAVID STARR JORDAN, Chancellor Emeritus, Stanford University  
JOHN DEWEY, Professor of Philosophy, Columbia University  
MORRIS LLEWELLYN COOKE, Consulting Engineer, Philadelphia

Describes the universe. Or, is a rigorous qualitative unification, experimentally verifiable, of science, religion, and philosophy. Addressed to the average educated person, but tries to be sufficiently detailed to satisfy all sorts of experts. 320,000 words.

### Extracts from INTRODUCTIONS:

DR. JORDAN'S: "... unique ... daring ... successful ... Mr. Klyce makes no attempt to solve any scientific problem by pure reason."

PROF. DEWEY'S: "Mr. Klyce's book is remarkable, noteworthy. If experts in various lines shall find his special results as fruitful, as illuminating, as his general treatment of knowledge and technical philosophy has been to me, the remark just made will turn out to be altogether too moderate."

MR. COOKE'S: "The book as a whole, in spite of its austere mechanics, is not hard reading ... a master generalization."

Publisher's PRICE to everybody: \$2 plus postage (6c to 36c)

Bookstore price: \$3. Write for Circular

Set up, printed, and published by  
S. KLYCE, Winchester, Mass.
